The "Rate and Fee Disclosure" explains current terms, rates and fees applicable to the share, share draft and certificate accounts we offer. We may offer other rates and require other fees or amend the rates and fees, as explained in this disclosure, from time to time. Each owner on an account agrees to the terms described in this disclosure and acknowledges that it is a part of the Member Service Agreement (MSA).

You earn an extra .10% dividend on your regular share savings account when you have loans over \$10,000.

Further details are set forth in the Explanation of Rates & Fees Disclosures below

Truth-in-Savings Disclosures

As explained in the MSA, the "Rate & Fee Disclosure" applies to all the accounts we offer. Except as specifically described, the following terms apply to all of the accounts you have with us.

1. Rate Information

The Dividend Rate and Annual Percentage Yield on the accounts are set forth above. For all accounts except certificates, the Dividend Rate and Annual Percentage Yield may change at any time as determined by the Board of Directors. Share accounts and IRA accounts are Tiered Rate Accounts. If the balance in the account is within the balance range for a particular tier, the Dividend Rate and Annual Percentage Yield for that tier will apply to the entire balance in the account. The Dividend Rates and Annual Percentage Yields are the prospective rates as of the effective date shown above. For Certificate Accounts, the Dividend Rate and Annual Percentage Yield are fixed and will be in effect for the term of the account. For Certificate accounts, the Annual Percentage Yield is based on an assumption that dividends will remain on deposit until maturity. A withdrawal of dividends will reduce earnings.

Kasasa Saver and Kasasa Cash Checking accounts are tiered rate accounts. If the account qualifications (as set forth below) for any monthly qualification cycle are not met, the non-qualifying rate will apply to the balance in the account for that cycle. If qualifications are met for a qualification cycle, the applicable qualifying rate will apply to the balance in the account for that cycle. For Kasasa accounts, the Dividend Rate specified for a tier will apply only to the portion of the account balance that is within that tier. The range of annual percentage yield(s) (which vary depending on the balance in the account) are shown for each tier.

The Annual Percentage Yield (APY) disclosed on the Kasasa Cash account assumes that dividends earned in Kasasa Cash compound. However, by linking Kasasa Saver to Kasasa Cash, the dividends earned in your Kasasa Cash account are automatically transferred into your Kasasa Saver each statement cycle. Therefore, the dividends do not remain in your Kasasa Cash account and do not compound. As a result, the actual APY for the Kasasa Cash account may be less than the APY disclosed for that account. Kasasa Saver APYs may be less than the Kasasa Cash APYs.

2. Nature of Dividends

Dividends are paid from current income and available earnings after required transfers to reserves at the end of a dividend period. The Dividend Rate and Annual Percentage Yield identified above are the rates and yields for the last dividend period, as shown above.

3. Compounding and Crediting

Dividends will be compounded and credited as identified above. For dividend bearing accounts, the Dividend Period begins on the first calendar day of the period and ends on the last calendar day of the period.

4. Accrual of Dividends

Dividends will begin to accrue on noncash deposits (e.g., checks) on the business day you make the deposit to an account you have with us. If you terminate the account before accrued dividends are credited, accrued dividends will not be paid.

5. Balance Information

The minimum balance required to open each account and earn the stated Annual Percentage Yield is set forth above. If you do not maintain the minimum balance, you will not earn the stated Annual Percentage Yield. For all accounts, dividends are calculated using the Average Daily Balance method, in which dividends are calculated by applying a periodic rate to the average daily balance in the account for the dividend period. The average daily balance is determined by adding the full amount of principal in the account for each day of the period and dividing that figure by the number of days in the period.

6. Certificate Account Features

a. Account Limitations

After you start the account, you may not make additional deposits to a Certificate Account.

b. Maturity

The Certificate Account you have with us will mature on the maturity date identified on your Account Receipt or Renewal Notice.

c. Early Withdrawal Penalty

We may impose a penalty if you withdraw any of the principal of the Certificate Account before the maturity date.

1) Amount of Penalty. The penalty is equal to the greater of \$25 or 50% of the dividends that would be earned on the amount withdrawn over the remaining term of the account.

2) How the Penalty Works. The penalty is calculated as a forfeiture of part of the dividends that have been or would be earned at the dividend rate on the account. It applies whether or not the dividends have been earned. In other words, if the account has not yet earned enough dividends or if the dividends have already been paid, the penalty will be deducted from the principal.

3) Exceptions to Early Withdrawal Penalties. At our option, we may pay the account before maturity without imposing an early withdrawal penalty under the following circumstances: when an account owner dies or is determined legally incompetent by a court or other body of competent jurisdiction. Where the account is an Individual Retirement Account (IRA) and any portion is paid within seven (7) days after establishment or where the account is an IRA and the owner attains age 59 ½ or becomes disabled and begins making periodic withdrawals.

d. Renewal Policy

Certificate Accounts are automatically renewable accounts. Automatically renewable accounts will renew for another term upon maturity. You have a grace period of ten (10) days after maturity in which to withdraw funds in the account without being charged an early withdrawal penalty.

e. Nontransferable/Nonnegotiable

The account(s) you have with us is/are nontransferable and non-negotiable. This means that an account and the funds in the account may not be pledged to secure any obligation of an owner, except obligations with the Credit Union.

Fee Schedule

Replace ATM/debit or credit card	\$5.00	Stop payments – each.....	\$22.00
